PERMIT APPLICATION INSTRUCTIONS

The list below are permits that are **required** by Plain Township Fire & Rescue when the following work is being done in the township:

- Above Ground Storage Tanks
 - New Installations
- Fire Alarm Installations
- Indoor Pyrotechnics
- Kitchen Suppression Systems
- Outdoor Fireworks
- Sprinkler Installations
 - Fire Underground
 - Sprinkler Systems <19 Heads
 - Sprinkler Systems >20 Heads
- Tents & Membrane Structures (400 sq. ft. or larger)
- Underground Storage Tanks
 - Leak Detection Upgrade
 - New Underground Storage Tank Installation
 - Partial Piping Replacement or Upgrade
 - Piping Repair
 - Temporary Out of Service (More than 90 days)
 - Total Piping Replacement or Upgrade
 - Underground Storage Tank Abandon in Place
 - Underground Storage Tank Removal
 - Underground Storage Tank Replacement
 - Underground Storage Tank Upgrades

Before a permit can be issued the responsible party for the permit shall fill out the appropriate permit application, available on the website, deliver two (2) sets of plans (if applicable) to the address listed above with the appropriate permit application and permit fee. **Checks only** made out to Plain Township Fire & Rescue.

Once the plans have been reviewed and comments issued (if needed) the Division of Inspections shall issue a permit for the work being done in the township. **Work can only begin once the permit has been issued.**
